Professional Summary

Software Engineer combining expertise in AI, cloud, and full-stack development with strong communication skills. Proven ability to architect scalable systems, lead client-facing technical discussions, and deliver high-impact engineering solutions.

Technical Skills

Languages & Frameworks: C#, Python, C++, Rust, JavaScript, TypeScript, SQL, HTML, CSS, React, .NET, Node.js
Databases & Cloud: PostgreSQL, MongoDB, Snowflake, Microsoft Azure, Databricks, Microsoft Fabric
AI & Data: LLMs, RAG, Agentic AI, LangChain, NLP, Vector Embeddings, Document Intelligence, Prompt Engineering
Development & DevOps: REST APIs, Git, GitHub, Docker, Terraform, Azure DevOps, CI/CD, Next.js, Express.js, Distributed Systems
Coursework: Database Management Systems, Object-Oriented Programming, Data Structures & Algorithms, Operating Systems, Computer Networks, Cybersecurity, Full-Stack Web Development, DevOps, System Design

Experience

Associate Software Engineer — Nov 2025 – Oct 2026
MAQ Software — *Hyderabad, India*

- Architected a GenAI "chat over data" platform (FastAPI, React), orchestrating LangGraph agents with multi-tool routing (Snowflake, pgvector RAG, wiki) to translate natural-language into validated SQL, cutting resolution time by 40%.
- Took ownership of a plug-and-play Document Intelligence Engine, processing millions of records at 98% accuracy for classification, extraction, and confidence scoring.
- Streamlined deployments via Terraform and Azure DevOps, tuning prompt execution to process 25-page documents in under 2 minutes while cutting memory usage by 70%.
- Migrated 50+ enterprise repositories to Snowflake with zero downtime, building Microsoft Fabric data agents that cut migration turnaround by 45% and enabled enterprise-wide RAG integrations.

Freelance AI Web Developer — Sep 2024 – Aug 2025
Self-Employed — *Remote*

- Shipped multiple AI-integrated web applications using React and Python, delivering scalable architectures across 5+ client engagements.
- Integrated RESTful APIs, LLM capabilities, and workflow orchestration pipelines, improving customer-facing workflow coverage by 85%.
- Streamlined testing and repetitive development workflows via custom tooling, cutting manual QA effort by 60% and shortening project turnaround by 25%.

Projects

OneJob AI Portal | [link] — Jul 2026 – Sep 2026

- Architected an AI-driven job portal with resume-based job filtering, intelligent matching, and a **1-click automated application flow** using Python and React.
- Delivered AI workflows for resume enhancement, question generation, and personalized interview preparation, cutting candidate prep time by 50%.
- **Tech Stack:** Python, React, MongoDB, REST APIs, LLMs, System Design

Contextual Query Engine (RAG) | [link] — Jun 2026 – Jul 2026

- Designed a Retrieval-Augmented Generation (RAG) engine for semantic querying using PostgreSQL and pgvector, achieving 92% relevance on benchmarks.
- Streamlined embedding storage and vector indexing, improving retrieval efficiency and reducing query latency by 40% across large-scale datasets.
- **Tech Stack:** Python, PostgreSQL (pgvector), Vector Embeddings, LLMs

AI Safety Incident Log API | [link] — Apr 2025 – May 2025

- Built a concurrent REST API in Rust capable of handling 10,000+ requests/minute for logging AI safety incidents, using Rocket and Diesel ORM.
- Benchmarked the Rust implementation at 1,400x faster than Python and 78x faster than Node.js, containerizing the service with Docker.
- **Tech Stack:** Rust, Rocket, Diesel, SQLite, Docker, Kali Linux

Certifications

Microsoft Credentials: DP-600, DP-700, DP-800, AB-100, AI-103, SC-500 — *Dec 2025 – Sep 2026*
GitHub: GH-300 (GitHub) — *Aug 2026*
NPTEL: Cloud Computing — *Sep 2024*

Achievements

Competitive Programming: LeetCode 1800+ Rating, CodeChef 3-Star, active problem solving on Codeforces.
TryHackMe: Top 5% global rank (Advanced cybersecurity, penetration testing, cryptography)

Education

Lovely Professional University — Sep 2022 – Aug 2026
Bachelor of Technology in Computer Science and Engineering; CGPA: 7.94 — *Punjab, India*
